3-13-2020

Hello Dian, we are in receipt of your letter dated March 6th concerning the Franklin Street Cranston site.

We would not look to participate in the investigation or cleanup of the chemical in question, as it is an industrial facility. It is Dry Cleaning Fluid. Our building has housed nothing but retail as far back as we are aware.

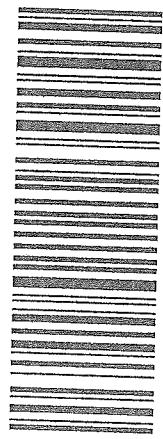

We also know the building next to us houses a dry cleaner for decades.

We don't see how we would be involved with this, or how in any interest or justice no FAIRNESS we would be shouldering any of the cost of this. As we had nothing to do with it.

I happy to talk to you at any point.

Thank you,
Mike McEntee
